TRANSITIONAL HEALTHCARE FURNITURE

QUALITY & COMFORT FOR EVERY STEP TO WELLNESS

■ SCOPE TECHNOLOGIES TRANSITIONAL HEALTHCARE FURNITURE IS DESIGNED TO MEET THE DISTINCT NEEDS OF PATIENTS, NURSES, FACILITY MANAGERS, AND DESIGNERS. WE STRIVE TO EXCEED INDUSTRY QUALITY PERFORMANCE STANDARDS, FULFILL PATIENT COMFORT REQUIREMENTS, AND OFFER ATTRACTIVE STYLES AND DESIGNS.

## INFECTION CONTROL

Hospital-related infections threaten the health and safety of many patients. Nanocide™, a cutting-edge antimicrobial-coated fabric, effectively kills Staphylococcus and Enterococcus, which are two of the most common strains of bacteria associated with hospital-related infections.

When Scope recliners are in the Trendelenburg position and the arms are open, you can reach virtually 100% of the recliner's vinyl surface and effectively clean it.

Our exclusive Nanocide™ vinyl is impregnated with silver (AG) that can never be washed off even when using a 10% bleach cleaning solution. Other competitive anti-microbial and anti-fungal vinyls lose effectiveness after approximately 2 years because the topcoat of the vinyl diminishes after repetitive contact with harsh chemicals. 99.9% of bloodborne pathogens, such as MRSA, are killed within 30 minutes of contact with Nanocide™.

QUALITY & COMFORT FOR EVERY STEP TO WELLNESS

# SCOPE™ TECHNOLOGIES

## ABOUT SCOPE'S FABRICS

IN ADDITION TO OUR EXCLUSIVE NANOCIDE™ VINYL, SCOPE TECHNOLOGIES OFFERS A LARGE PALATE OF FABRIC PATTERNS AND COLORS FOR OUR HEALTHCARE FURNITURE. OUR FABRICS FEATURE SUPERIOR WEAR AND STAIN RESISTANCE. THEY ARE ALSO SPECIALLY FORMULATED WITH ANTI-MICROBIAL AND ANTI-FUNGAL PROPERTIES.

IN ADDITION, WE OFFER FABRICS THAT ARE PVC FREE AND DO NOT EMIT TOXIC GASES WHEN BURNED OR BURIED AFTER USE. SCOPE TECHNOLOGIES FABRICS ARE DESIGNED TO HANDLE THE DYNAMIC REQUIREMENTS OF HEALTHCARE SETTINGS AND PROVIDE YEAR AFTER YEAR OF WORRY-FREE COMFORT AND DURABILITY. WE ALSO WORK WITH CUSTOMER OWNED MATERIALS (COM) FOR SPECIALIZED CUSTOMIZATIONS.

## SCOPE TECHNOLOGIES KNOWS FURNITURE

OUR TRADITION OF QUALITY AND COMFORT IN FURNITURE DATES BACK TO 1964. THE LUX COMPANY PROVIDED CUSHIONS TO THE RECREATIONAL VEHICLE INDUSTRY. IN 1968, A FURNITURE DIVISION FROM LASALLE-DIETCH WAS PURCHASED BY THE LUX COMPANY WITH MONTGOMERY WARD AS ITS LARGEST CUSTOMER. WHILE GROWING IN THE RECREATIONAL VEHICLE MARKET, CONTRACT FURNITURE WAS LAUNCHED UNDER THE BRAND OF LUXSTEEL, WHICH IS STILL MANUFACTURED BY SCOPE TECHNOLOGIES. THE MEDICAL DIVISION WAS STARTED IN THE EARLY 1990'S. IN 1993, LUX PATENTED THE POPULAR SURE REST SLEEPER SOFA.

TODAY, OUR UNIQUE TRANSITIONAL HEALTHCARE FURNITURE IS DESIGNED BY A TEAM OF PATIENTS, CAREGIVERS AND PHYSICIANS.
